"TRIPPIN' THE AFRO-FANTASTIC!"

"EXPLORING AFROFUTURISM AND AFRO SURREALISM IN TV, FILM, AND LITERATURE

Afrofuturism examines how Black people reclaim their joyous and anguished past to project themselves into a living future where they thrive instead of survive!

Afro Surrealism exists in the subjective NOW, where strange but familiar realities generated by our unconscious depths can generate both fear and inspiration!

This course will examine these genres and more in modern TV, film, comics, and literature!
